

PRODUCT PRESENTATION

Hybrid Tunnel Fully Automatic Car Wash System

**CAROLINA
Shine**

Carolina Shine Service

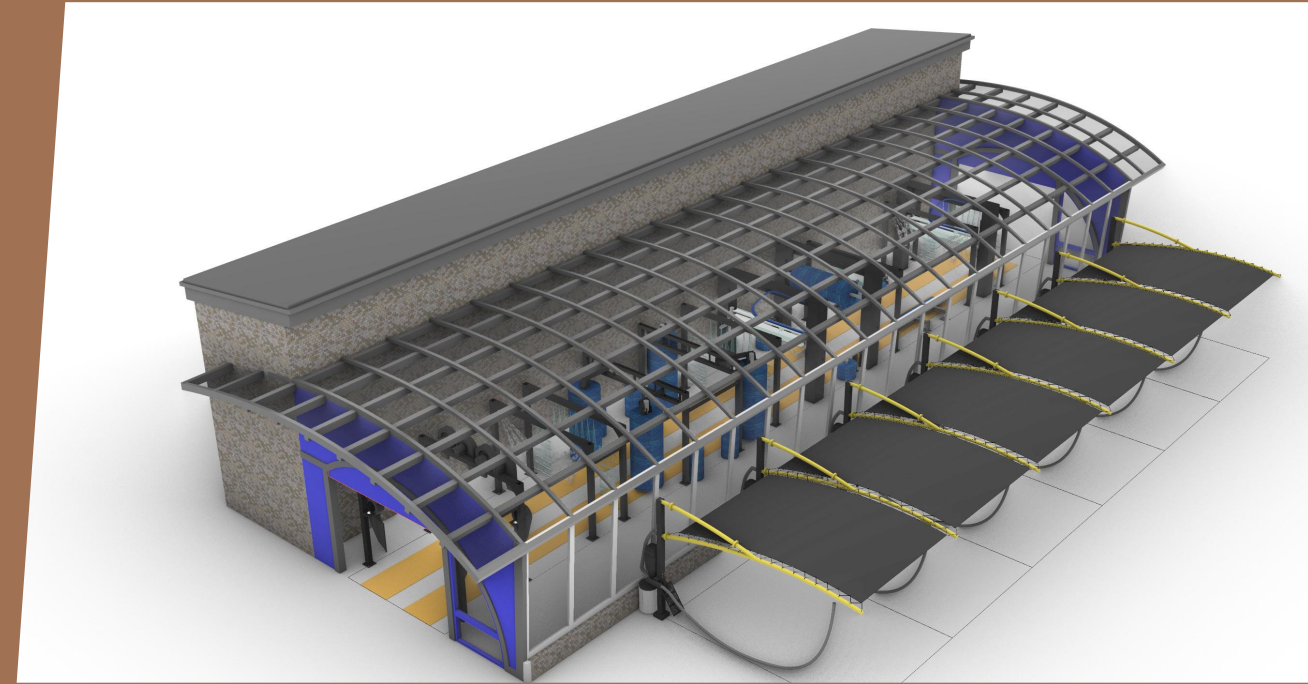

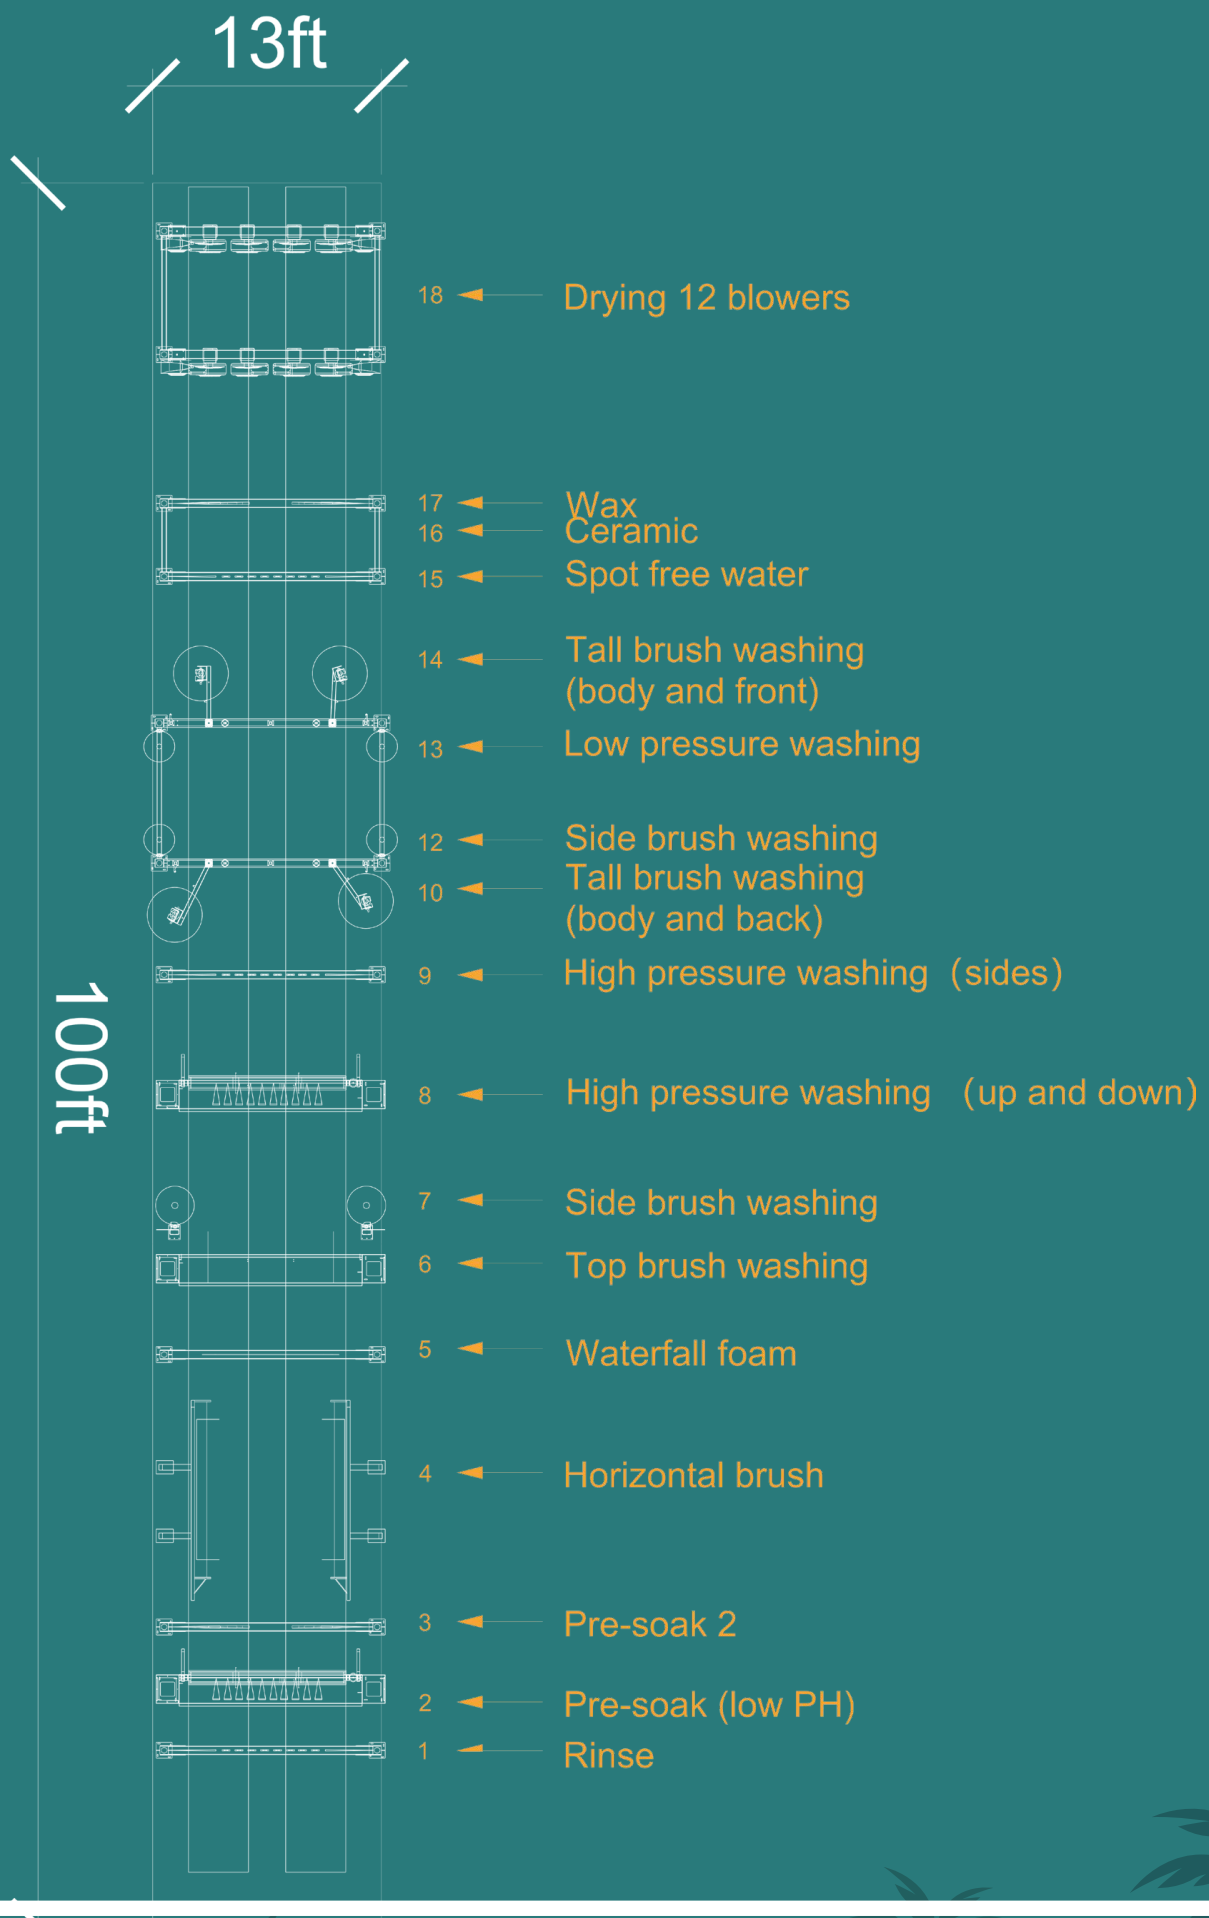

Pre sales service

- 1.Free product proposals
- 2.Car wash machine customization
(Logo/Color/Language/Payment software)
- 3.Construction drawing design

After sales service

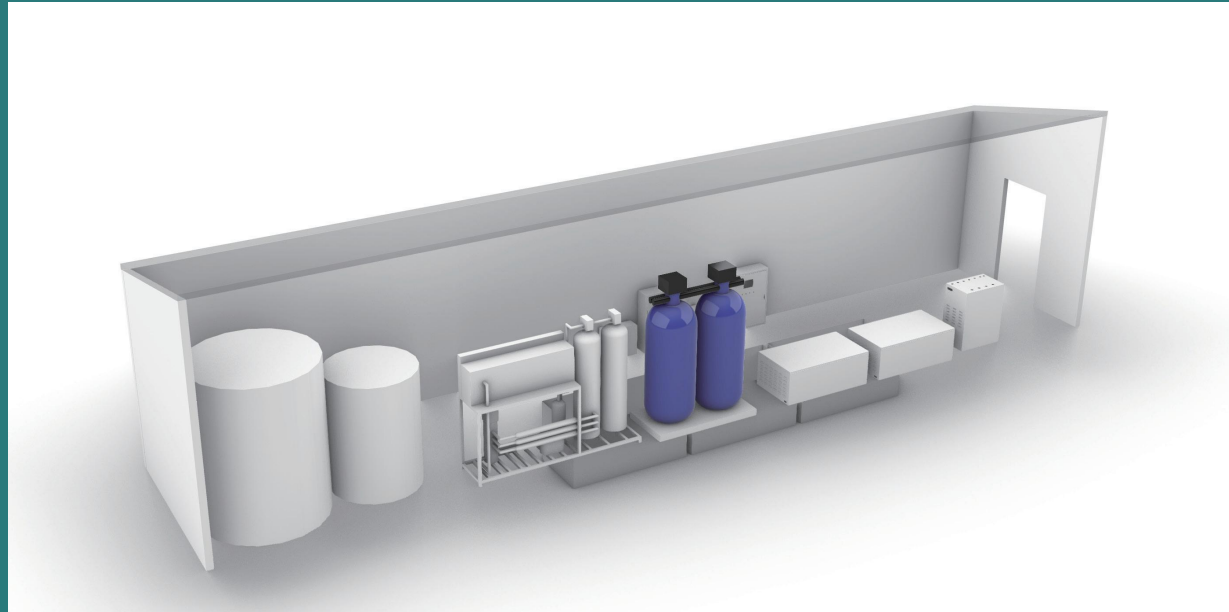

- 1.Life long technical support &
Free system upgrade
- 2.Engineer on-ground installation
support commissioning & Training
- 3.Three years warranty & Parts free

Advantage

1. The car wash modes can be switched for each car, allowing customers to choose as they wish. Either to use brush or touchless wash.
2. Specialized plastic conveyor belt: Wear-resistant, tough, chemical and temperature resistant, modular design for smooth operation, anti-static and flame-retardant to ensure high safety.
3. Core Components from Globally Renowned Brands, Ensuring Product Performance.
4. Payment kiosk: Supporting multiple payment methods - cash/credit card (Google Pay, Apple Pay)/License Plate Member Recognition etc. Convenient and Efficient.
5. The structure is robust and the service life is long. The machine frame is usually made of hot-dip galvanized steel, which is rust-proof and corrosion-resistant, and has a service life of no less than 10 years. Upgraded Stainless Steel Frame remain optional at extra cost.
6. Intelligent and safe, easy to maintain. Equipped with self-detection of faults, multiple safety protections, alarms, and remote control modules. More reliable to use, and faster fault handling.
7. Photoelectric sensors detect different streamlined shapes on the car body and adjusts the cleaning intensity to the optimal level for cleaning all parts.
8. Specialized EVA brush won't damage the paint at all, which is very soft and elastic. The car body and wheels are cleaned with brushes of varying softness for a full-coverage cleaning. And clean water is continuously sprayed and rinsed to the brushes during the whole washing process, while ensuring cleaning power, it can effectively protect the car paint.
9. Self-Developed Intelligent Car Wash Programme, Simple Operation, User-Friendly and Flexible Adjustment.
10. Equipped with Water Reverse Osmosis System to Improve Water Quality and Increase Car Wash Satisfaction.
11. Energy Saving and Environmental Protection: Equipped with a Water Circulation System, Enhancing Brand Social Responsibility.
12. Entrance LED Advertising Screen and Inside LED Lights, enhancing the Immersive Car Wash Experience.
13. One-Stop Solutions Provider for Auto Car Wash Business, based on Customer Site and Functional Requirements.
